

FEDERATION INTERNATIONALE FELINE FIFe

DECISION MINUTES

**GENERAL ASSEMBLY
26+27.05.2022**

**Park Hotel
Plzeň
Czech Republic**

1. Welcome speech of the President

The President, Mrs Annette Sjödin, opened the Meeting at 09.00 am and welcomed those present. She expressed the wish of the Board that this Assembly, as always, would be a meeting where participants showed mutual respect, were able to compromise and make decisions for the benefit of the cat. She said that it was her sad duty to inform the Assembly that the FIFe Judges Mrs Lili Anciau from Belgium and Mr Hristo Simeonov from Bulgaria had died and she asked all those present to observe a minute of silence. She then declared the GA 2022 officially opened.

The President said that if anyone wanted matters to be taken to the minutes, this should be explicitly requested and all changes or rewording of proposals (including the page number) should be submitted in writing and sent by email to the General Secretary, in English, German and French.

She stated that Lux Cat Club-FFL (LU) submitted a written request to vote by secret ballot for the duration of the entire General Assembly.

With reference to article 4.6 of the Statutes, the President confirmed that the Vice President, Mr Veikko Saarela and the General Secretary, Mr Eric Reijers would assist her in chairing the meeting. She informed the Assembly that the Disciplinary Commission (DC) would be represented by Mrs Paula van de Wijngaart, the Judges & Standards Commission (JSC) by Mrs Donatella Mastrangelo, the Show Commission (SC) by Mrs Thea Friškovec-Keller, the Breeding & Registration Commission (BRC) by Mrs Maria Myrland, the Health & Welfare Commission (HWC) by Mrs Jurgita Gustaitiene and the Breed Councils by Mrs Nathalie Smits-Peelen (BCA). Then, she stated that the Controllers, Mrs Marie-France Pohl and Mr Jürg Keller-Friškovec and also, the Cattery names administrator (CNA), Mrs Eva Wiéland-Schilla, and the Show calendar administrator (SCA) Mrs Dorte Kaae, were present.

Finally, she said that the coffee, tea and lunch breaks would take place according to schedule and she asked all present to switch off their mobile phones or put them on silent mode.

She gave the floor to the General Secretary, Mr Eric Reijers, who called the Roll of the Delegates.

2. Roll call of the Delegates

Country	Member	Delegate	Advisor
AR	AFA	Mrs Belina Muicey

15. Elections (*Members, who supported candidates, appear behind or below their names*)

a) Election of a President for a period of 3 years

Candidate:

- **Mrs Annette Sjödin (SE)** proposed for this function by SVERAK (SE), KKÖ (AT), ÖVEK (AT), Felis Belgica (BE), ČSCH-SCHK (CZ), 1. DEKZV (DE), EKL-Felix (EE), ASFE (ES), FFF (FR), Felis Britannica (GB), FGR (GR), SFDH (HR), Felis Hungarica (HU), ANFI (IT), LFA-Bubaste (LT), CFCA (LV), KKM (MY), Mundikat (NL), NRR (NO), CPF (PT) and FAF-FR (RO).

Mrs Annette Sjödin was duly elected as President for a period of three years.

b) Election of a General Secretary for a period of 3 years

Candidate:

- **Mr Eric Reijers (CZ)** proposed for this function by ČSCH-SCHK (CZ), KKÖ (AT), ÖVEK (AT), Felis Belgica (BE), 1. DEKZV (DE), EKL-Felix (EE), ASFE (ES), FFF (FR), Felis Britannica (GB), FGR (GR), SFDH (HR), Felis Hungarica (HU), ANFI (IT), LFA-Bubaste (LT), CFCA (LV), KKM (MY), Mundikat (NL), NRR (NO), CPF (PT), FAF-FR (RO) and SVERAK (SE).

Mr Eric Reijers was duly elected as General Secretary for a period of three years.

c) Election of 3 Members of the Breeding & Registration Commission for a period of 3 years

Candidates in alphabetical order:

- **Mrs Sarah Johnson (GB)** nominated by Felis Britannica (GB), Felis Belgica (BE), SFDH (HR), ANFI (IT), NRR (NO), CPF (PT) and SVERAK (SE)
- **Mrs Katja Kinnunen (FI)** nominated by SK (FI) and NRR (NO)
- **Mrs Maria Myrland (NO)** nominated by NRR (NO), KKÖ (AT), Felis Britannica (GB), SFDH (HR), ANFI (IT), CPF (PT) and SVERAK (SE)
- **Mrs Cecilia Wennergren (SE)** nominated by SVERAK (SE) and ANFI (IT)

Mrs Johnson, Mrs Myrland and Mrs Wennergren were duly elected as members of the Breeding & Registration Commission for a period of three years.

d) Election of 5 Members of the Disciplinary Commission for a period of 3 years

Candidates in alphabetical order:

- **Mr Adrian Alexandru Dragota (RO)** nominated by FAF-FR (RO), KKÖ (AT), FFB (BR), FFH (CH), EKL-Felix (EE), ASFE (ES), FFF (FR), Felis Hungarica (HU), ANFI (IT), CFCA (LV), Felis Moldova (MD), Mundikat (NL), Felis Polonia (PL), CPF (PT), ZFDS (SI) and UFU (UA)
- **Mrs Anne Paloluoma (FI)** nominated by Suomen Kissaliitto (FI), Felis Belgica (BE), Felis Britannica (GB), ANFI (IT), NRR (NO), CPF (PT) and SVERAK (SE)
- **Mr Herbert Steinhauser (AT-ÖVEK)** nominated by ÖVEK (AT), FBE (BE), ČSCH-SCHK (CZ), 1. DEKZV e.V. (DE), FB (GB), SFDH (HR), ANFI (IT), LFA-Bubaste (LT), NRR (NO) and CPF (PT)
- **Mr Marteinn Tausen (IS)** nominated by KKÍ - Kynjakettir (IS) and NRR (NO)
- **Mr Joeri Vanrusselt (BE)** nominated by Felis Belgica (BE), 1.DEKZV e.V. (DE), Felix (EE), Felis Britannica (GB), ANFI (IT), LFA-Bubaste (LT), NRR (NO), CPF (PT), SVERAK (SE) and UFU (UA)
- **Mrs Marina Vinkel (EE)** nominated by Felix (EE), Felis Belgica (BE), Felis Britannica (GB), ANFI (IT), LFA-Bubaste (LT), KKM (MY), NRR (NO), CPF (PT), FAF-FR (RO), ZFDS (SI) and UFU (UA)

Thus, **Mr Dragota, Mrs Paloluoma, Mr Steinhauser, Mr Vanrusselt and Mrs Vinkel** were duly elected as members of the Disciplinary Commission for a period of three years.

e) Election of 6 Members of the Judges & Standards Commission for a period of 3 years

Candidates in alphabetical order:

- **Mrs Satu Hämäläinen (FI)** nominated by Suomen Kissaliitto (FI), Felis Britannica (GB), SFDH (HR), Felis Hungarica (HU), ANFI (IT), LFA-Bubaste (LT), NRR (NO) and CPF (PT)
- **Mr Steven L. Jones (NO)** nominated by NRR (NO), KKÖ (AT), Felis Belgica (BE), Felis Britannica (GB), SFDH (HR), ANFI (IT), LFA-Bubaste (LT), CPF (PT), SVERAK (SE)
- **Mrs Donatella Mastrangelo (IT)** nominated by Felis Belgica (BE), Felis Britannica (GB), Felis Hungarica (HU), ANFI (IT), NRR (NO), CPF (PT) and SVERAK (SE)
- **Mr Aliosha Romero (IS)** nominated by KKÍ - Kynjakettir (IS) and ANFI (IT)
- **Mrs Yulia Skabovska (UA)** nominated by UFU (UA), EKL-Felix (EE) and LFA-Bubaste (LT)
- **Mrs Marie Westerlund (SE)** nominated by Felis Britannica (GB), SFDH (HR), Felis Hungarica (HU), ANFI (IT) and NRR (NO)

Mrs Hämäläinen, Mr Jones, Mrs Mastrangelo, Mr Romero, Mrs Skabovska and Mrs Westerlund were duly elected as members of the Judges & Standards Commission for a period of three years.

f) Election of 5 Members of the Show Commission for a period of 3 years

Candidates in alphabetical order:

- **Mr Marcel Frank (NL-Mundikat)** nominated by Mundikat (NL), AFA (AR), KKÖ (AT), 1. DEKZV e.V. (DE), FFF (FR), ANFI (IT) and FAF-FR (RO)

- **Mrs Thea Friškovec-Keller (CH)** nominated by ZFDS (SI), FFH (CH), EKL-Felix (EE), Felis Britannica (GB), SFDH (HR), Felis Hungarica (HU), ANFI (IT), LFA-Bubaste (LT), NRR (NO), CPF (PT) and SVERAK (SE)
- **Mr João Noronha Carvalho da Silva (PT)** nominated by CPF (PT), EKL-Felix (EE), Felis Britannica (GB), SFDH (HR), ANFI (IT), LFA-Bubaste (LT), NRR (NO) and SVERAK (SE)
- **Mrs Waltraut Sattler (DE)** nominated by SFDH (HR), ANFI (IT), NRR (NO), CPF (PT), ZFDS (SI)
- **Mrs Riikka Turpeinen (FI)** nominated by Suomen Kissaliitto (FI), Felis Britannica (GB), SFDH (HR), ANFI (IT), NRR (NO), CPF (PT), SVERAK (SE) and ZFDS (SI)
- **Mr Kristof Van Roy (BE)** nominated by Felis Belgica (BE)
- **Mrs Gøran Vinje (NO)** nominated by NRR (NO), KKÖ (AT), Felis Britannica (GB), SFDH (HR), ANFI (IT), CPF (PT) SVERAK (SE) and ZFDS (SI)

Mr Frank, Mrs Friškovec-Keller, Mr Noronha, Mrs Turpeinen and Mrs Vinje were duly elected as members of the Show Commission for a period of three years.

g) Election of 1 Assistant Controller for a period of 2 years

Candidates in alphabetical order:

- **Mr Hans Boskär (SE)** nominated by SVERAK (SE)
- **Mrs Jaana Heikanen (FI)** nominated by Suomen Kissaliitto (FI)
- **Mr Timo Kannianen (NL-Felikat)** nominated by Felikat (NL)

Mr Kannianen was duly elected as Assistant Controller for a period of two years.

h)	Added agenda item – question of the Board to the GA – re. to article 4.8 of the Statutes.....	23

22. Information on the World Cat Congress (WCC)

The next WCC Meeting was planned to take place in 2023 in Tasmania organised by ACF.

23. Miscellaneous

The President informed the Assembly about the Mission Statement composed by the commissions and the Board; a copy of this statement was handed out to the delegates. Then the president went to Mrs Paula van de Wijngaart and thanked her for all the work she had done in FIFe over the last 25 years in different functions and gave her a present. Next, the president asked Mrs Waltraut Sattler to step forward. As a long year member of the FIFe Show Commission, she was appointed an honorary judge and also got a present.

24. Close of the General Assembly

The President asked Mr Martin Šanda, Mr Joao Noronha and Mr Jose Gomes, the representatives of the Czech and Portuguese Members, to come forward to hand over the FIFe flag. The 2023 General Assembly will be organised on Thursday 25th and Friday 26th of May in Monte Gordo, Portugal.

The President thanked everyone for the good atmosphere and good comments and then declared the 2022 General Assembly in Plzeň, Czechia, officially closed at 15:45.

By order of the Board,

Annette Sjödin - President

Eric Reijers - General Secretary

Bette Lind - Supervisor of the English version of the Minutes

Proposals regarding the Standards, General Part & the EMS List

LU	LCC-FFL	Proposal 1	Standards
Change of name of Breed; European to European Cat			

We propose to change the name from the breed 'European' to 'European Cat'

Remarks

In some written correspondences, the name of 'European' could be confused. The definition 'European' is used for the people from Europe. For the Norwegian Forest Cat, the FIFe already had this denomination.

Voting result	Yes	No	Abstentions	Missing

FIFe	BRC	Proposal 1	Standards, General Part & EMS list	03
Eye colour codes (61-67) for all bicolour (03) cats of group judged breeds				

For the cats of group judged breeds, bicoloured cats (03), the code for eye colour must be included in the full EMS code of the cat. The following breeds will be affected:

ACL/ACS	* 03 61/62/63/64/65/66/67
LPS/LPL	* 03 61/62/63/64/65/66/67
MCO/NFO/SIB/TUA	* 03 61/62/63/64
JBS	* 03 61/62/63/64
KBL/KBS	* 03 61/62/63/64
MAN/CYM	* 03 61/62/63/64/65/66/67
SRS/SRL	* 03 61/62/63/64/65/66/67
CRX/DRX/GRX	* 03 61/62/63/64/65/66/67
SPH/DSP	* 03 61/62/63/64/65/66/67
PEB	* 03 61/62/63/64/65/66/67

Remarks:

If this proposal is accepted:

- the standards and the EMS list for these breeds must be updated accordingly
- this change is valid for cats registered from 01.01.2023. Cats registered before 01.01.2023 may keep their EMS code without a code for eye colour without being downgraded to an x-variety.
- Cats registered before 01.01.2023 may have eye colour code but there is no obligation to do so.

FIFe	BRC/HWC/JSC	Proposal 8	Breeding & Registration Rules	§ 10.2.3
Preliminary recognition of a new breed: Bombay (BOM)				(reworded)

We propose the preliminary recognition of Bombay.

According to § 10.2.3 the proposal for preliminary recognition must include:

1. the preliminary breed standard including the scale of points, the table of varieties (EMS codes) and the category to which the breed belongs; all and only varieties (EMS codes) which are genetically possible according to the presented pedigrees can be included in the proposal
2. the description of varieties which are not yet recognised in any other breed and/or not described in the General Part to the Standards (if any)
3. the specific breeding restrictions and registration rules (if any)
4. the report of the BRC (pedigree information on cats bred/owned)
5. the report of the JSC (introduction of the breed, history, colours, etc.)
6. the report of the HWC (health issues)
7. the recommendation from each commission for the preliminary recognition of the breed.

1. BOM Standard including the scale of points, the varieties and the category
--

Standard and Scale of Points	–	sent as Annex I of the Agenda
Table of Varieties	–	to be delivered by the JSC
Category	–	3

2. Description of varieties in BOM not yet recognised or not described in the General Part

Not applicable

3. Breeding restrictions and registration rules for BOM

Bombay (BOM) is a solid black cat. No other colour nor any pattern shall be recognised by the FIFe. Permitted outcross is Burmese brown (BUR n). ~~and XSH n 31 [BOM].~~

All colours of Burmese (BUR) are permitted in the ancestry.

American Shorthair (AMS non) is permitted in the third and previous generations of the ancestry during the preliminary recognition phase, after full recognition AMS are not permitted in the ancestry.

Appearances of offspring and how these must be registered

when mating BOM x BOM or when mating BOM x BUR n/XSH n 31 [BOM]:

Appearance	EMS code	Breeding and registration restrictions
n - black	BOM	None
n 31 - brown burmese pointed	XSH n 31 [BOM]	Can only be used for breeding BOM and BUR , cannot be re-registered
a - blue b - chocolate c - lilac	BOM x a BOM x b BOM x c	Cannot be used for breeding BOM
Any other variety	XSH * <BOM>	Cannot be used for breeding BOM, cannot be re-registered

* means additional information following the EMS system, i.e., lower case basic colour letter etc.

When breeding BOM:

- All cats used in breeding BOM must have a DNA-test for Burmese Head Defect (BHD), unless both parents are proven to be free from BHD
- These breeding principles are to be followed:
 - BHD-free x BHD-free
 - BHD-free x BHD-carrier
- Test results must be registered and published in accordance with § 3.5.1
- The breeder must inform buyers of Bombay cats about the BHD-disease and the registration policy, when selling a BHD-carrier.

It is highly recommended to test breeding cats for pointed, chocolate and dilute to avoid non-recognised colours in the offspring.

4. Report of the Breeding & Registration Commission on BOM

The Breeding and Registration Commission (BRC) has checked the pedigrees submitted by the Breed Council in support of its application. For cats to be considered in the number of cats registered for this application each, their pedigrees must meet the criteria in BRR § 10.2.2.

The BRC have received pedigrees of 47 cats. We have checked the validity of these accordance with the conditions in BRR 10.2.2, and have found:

- All the 47 pedigrees fulfil the requirement of BRR 10.2.2 (3 cats with a full pedigree or according to the suggested breeding restrictions and registration rules for the breed)
- All the 47 pedigrees fulfil the requirement of BRR 10.2.2 (15 cats with 3 generations of the breed, or according to the suggested breeding restrictions and registration rules for the breed.

In addition, we have noted that:

- There are cats registered in 4 different countries
- There are cats bred by 5 different breeders, in 4 different FIFe Members,
- There are cats from 11 different litters, 6 litters from the last 2 years by 4 breeders.

The preliminary conclusion from the BRC is:

according to our rules the pedigrees that are presented for the commission fulfil all the requirements to support a proposal for preliminary recognition.

On behalf of the Breeding & Registration Commission, Maria Myrland, chairman

5. Report of the Judges & Standards Commission on BOM

The history of the Bombay Breed

The Bombay is an example of a hybrid breed, combining characteristics of established domestic breeds to create and maintain a specific, third look. The goal was to produce cats who look like wild panthers. Ms. Horner began her effort in 1953 with the selective breeding of a black American Shorthair with rich eye

colour, bred to a brown Burmese female. Through a long, selective process of line breeding and outcross breeding, she was able to consistently produce a black cat unlike any other. The Bombay achieved CFA championship status in 1976. Black American Shorthairs and brown Burmese are still allowable breed outcrosses. TICA accepted the Bombay for championship competition in June 1979 and they “took over” the CFA standard.

BOM Standard

Attached is the Standard and Scale of Points for the BOM agreed by the Breed Council and the JSC. The breed shall be judged in Category 3.

Conclusions

In compliance with art.10.2.3 of the Breeding and Registration Rules, the JSC recommends the preliminary recognition of the Bombay from 01.01.2023.

Steven L. Jones, FIFe JSC Secretary

6. Report of the Health & Welfare Commission on BOM

The HWC received data from Bombay (BOM non) litters and adults owned by catteries registered in FIFe.

Adults

Information of 48 adult cats was submitted. All cats were between 10 months and 5 years old. In addition, information of 7 kittens between 3-10 months was submitted.

50 cats were tested for GM2, BHK all were negative.

37 cats were tested for BHD - 28 negative, 9 carrier of BHD

25 cats were tested for PKD: 17 of 25 cats where only one of the parents was tested had as result PKD negative, 8 of them where both parents were tested, both had a negative result

Kittens

Information of 7 kittens (1 female, 6 males) was submitted.

All kittens were tested for GM2, BHK, BHD. GMD2, BHK all were negative.

BHD - 3 negative, 4 carrier of BHD. No other health problems were reported.

Litters

Information of 13 litters, in total 48 kittens, bred by catteries from 4 different FIFe members was submitted.

The litters were born between February 2019 and December 2021. 60,4 % of the kittens were male and 39,6 % were female.

The gestation times were within normal range, 62-67 days, and the average weight of the kittens was (80-110 g) in all litters.

According to data all females gave fast and easy birth. All new-borns had placentas (amniotic sac) accounted for. Most of them started sucking milk within 10 min from birth. Mothers were in good health after the birth and very attentive to the kittens. 47 kittens (from 48) were born in a physiological position (front legs first), only 1 kitten born hind legs first.

Congenital defects were reported in 1 litter (from 13 litters) for 3 kittens (4 kittens in litter) they got cherry eye and underwent surgery. Two kittens died later:

1 kitten tragically died at the age of 2 weeks due to a falling accident; mother tried to carry the kitten upstairs.

1 kitten died one day old due to pneumonia. Had probably amniotic fluid in the lungs as it was breathing heavily and made rustling sounds.

According to data from 13 litters (total 48 kittens) in 13 kittens it was noticed by testing that they were BHD carriers. Only two of these carriers are used in breeding. The other carriers were sold as pets, and most are neutered.

In one litter of 4 kittens, 3 tested as BHD carriers and got cherry eyes. They underwent surgery. None of the kittens in this litter will be used for breeding.

Summary BOM health information

The breed is generally very healthy, having very few known problems all over.

The biggest issue are BHD-carriers which are hard to avoid as there are no restrictions regarding this in other organisations. Till now only two carriers of BHD are used in breeding of BOM non in FIFe.

BHD is a lethal gene if doubled. The HWC supports the breeder's suggestion to have BHD as a mandatory test in the BOM non. This mandatory BHD testing will protect both the breed and the breeders. With this testing we will provide a solid foundation for healthy cats in FIFe. We do not see the necessity for any other mandatory testing (i.e., Burmese GM2) as this is not a problem in BOM non.

Conclusion

The submitted health data shows that cats introduced as a new breed in FIFe are healthy and well cared for. The smaller the breed population is, the more careful the choice of cats for breeding must be. Only a few carriers can have a significant impact on the development of the breed.

The data of Bombay submitted to the HWC, shows that breeders carefully test their breeding stock for problems which have been found in the breed. The born litters were of a normal size. The survival rate of kittens was normal. We gladly recommend the Bombay for preliminary recognition in FIFe.

Kaunas, 23rd March 2022, On behalf of the FIFe HWC, Jurgita Gustaitiene, chairman

7. Recommendation from the commissions

Based on the presented documentation and information, the 3 commissions recommend the preliminary recognition of Bombay.

Voting result	Yes	No	Abstentions	Missing
<input checked="" type="checkbox"/> ACCEPTED	35	1	-	-

For the next proposal the BRC, HWC and JSC briefly indicated their support for the preliminary recognition request of the Lykoi. Before the proposal was discussed in detail and cats were shown a lengthy discussion took place if a vote needed to be taken enabling the Assembly to vote on the preliminary recognition of this breed. This with reference to article 3.5.2 of the BRR, which states that FIFe will not accept any new preliminary recognition applications for hairless varieties or partially hairless breeds.

The president gave the floor to Mr. Preiss who formulated the proposal, which was to agree on an exception to article 3.5.2 of the BRR so the next proposal, the preliminary recognition of the Lykoi could be dealt with

FIFe	BRC/HWC/JSC	Proposal 9	Breeding & Registration Rules	§ 10.2.3
Preliminary recognition of a new breed: Lykoi (LYO)				

We propose the preliminary recognition of Lykoi.

According to § 10.2.3 the proposal for preliminary recognition must include:

1. the preliminary breed standard including the scale of points, the table of varieties (EMS codes) and the category to which the breed belongs; all and only varieties (EMS codes) which are genetically possible according to the presented pedigrees can be included in the proposal
2. the description of varieties which are not yet recognised in any other breed and/or not described in the General Part to the Standards (if any)
3. the specific breeding restrictions and registration rules (if any)
4. the report of the BRC (pedigree information on cats bred/owned)
5. the report of the JSC (introduction of the breed, history, colours, etc.)
6. the report of the HWC (health issues)
7. the recommendation from each commission for the preliminary recognition of the breed.

1. LYO Standard including the scale of points, the varieties and the category

Standard and Scale of Points	–	sent as Annex II of the Agenda
Table of Varieties	–	to be delivered by the JSC
Category	–	4

2. Description of varieties in LYO not yet recognised or not described in the General Part

Lykoi is a cat with a specific amelanistic (roan) appearance. The description of roan is included in the coat section of the LYO Standard (see Annex II of the Agenda).

3. Breeding restrictions and registration rules for LYO

Lykoi is a cat with a specific amelanistic (roan) appearance. The breed will be recognised in all colours, including white and tabby. Permitted outcross in the preliminary phase is HCS. Non-roan offspring of this outcross must be registered as LYO x * 84.

Appearances of LYO * roan and HCS offspring and how these must be registered:

Appearance	EMS code	Breeding and registration restrictions
roan	LYO *	can only be used for breeding LYO
non roan	LYO x * 84	can only be used for breeding LYO

* means additional information following the EMS system, i.e., lower case basic colour letter etc.

4. Report of the Breeding & Registration Commission on LYO

The Breeding and Registration Commission (BRC) checked the pedigrees submitted by the Breed Council in support of its application. For cats to be considered in the number of cats registered for this application each, their pedigrees must meet the following criteria:

- There must be a minimum of 3 breeders in 3 different countries (BRR 10.2.1)
- Each breeder must register at least 1 litter in the last two years (BRR 10.2.1)
- Each pedigree must be genetically correct and registered in the RX register (only fully recognised breed can be registered in the LO register)
- There must be a minimum of 3 cats registered as a pure-bred cat in all generations (BRR 10.2.2 - 3)
- There must be a further 15 cats registered with at least 3 compliant generations (BRR 10.2.2 - 4).

The BRC have received pedigrees of 70 cats: 67 LYO non x n roan, 2 LYO non x a and 1 LYO non x n 33, and these are listed in the spreadsheet. In considering the pedigrees, we find that BRR 10.2.2 does not fit with a new breed based on a trait from housecats. As housecats are used as a crossbreed in the development of the Lykoi breed, the pedigrees cannot be "complete" - it is impossible. To demand full pedigrees from the start simply makes it impossible to build a new breed with these criteria.

Because of the HCS in the pedigrees there is not any full pedigrees yet.

6 pedigrees fulfil the requirement of BRR 10.2.2 (15 cats with 3 generations of the breed, or according to the suggested breeding restrictions and registration rules for the breed).

Twenty-nine of the pedigrees have two generations of LYO, with LYO also in the third generation. Six of these pedigrees have three full generations registered, with XSH in the third generation. In addition, we have noted that:

- There are cats registered in 5 different countries
- There are cats bred by 5 different breeders, in 5 different FIFe members
- There are cats from more than 13 different litters.

The preliminary conclusion from the BRC is:

According to our rules the pedigrees that are presented for the commission do not fulfil the requirements to support a proposal for preliminary recognition if we only look at the pedigrees and FIFe Rule 10.2.2.

However, the Lykoi is a new breed based on a trait that appeared in a housecat and breeders use housecats for outcrossing when they work to develop the breed. Because a housecat has no ancestry, a full pedigree is not yet easily achievable. FIFe breeders want to participate in the development of this breed within FIFe, and not just leave this formative and crucial time to other registries, and simply register the breed in FIFe when the work is done!

With this forefront in our minds, the BRC wishes to support this application, present the Lykoi breed for preliminary recognition and let the FIFe General Assembly decide if it is possible to make an exception to our rules with these comments in mind. BRC sincerely hopes that the GA will give the FIFe breeders an opportunity to work with their breed in our organisation.

Given our statement above, the BRC wishes to make it clear, and to have it recorded, that our stance in this instance in no way sets a precedent for any further application. We will expect this situation regarding the generations within a pedigree to be resolved at the point of Full Recognition.

On behalf of the Breeding & Registration Commission, Maria Myrland, chairman

5. Report of the Judges & Standards Commission on LYO

The history of the Lykoi breed

The Lykoi Cat is a natural mutation from a domestic shorthair that has the appearance of a werewolf. The mutation has occurred in domestic cats over the last 30 years. Foundation cats came from two unrelated litters born in 2010 in the USA. DNA testing was completed by UC Davis to confirm that the cats did not carry the Sphynx/Devon gene (all results came back proving that NONE of the foundation cats have the Sphynx/Devon gene). Dermatological/cardiological testing also found that the cats were healthy and the hair pattern was from any known disease or disorder. It was determined that it was indeed a true natural mutation and the Lykoi breeding program began on 2011

The name "Lykoi Cat" roughly means "Wolf Cat" in Greek. After the name was agreed upon, all the necessary documentation was sent to TICA to have the Lykoi breed listed as "experimental" (basically letting TICA know that breeders we were beginning the process of establishing a new breed).

As black coloured cats express the pattern of the werewolf cat more dramatically so, at the beginning, the focus was producing solid black cats that have the gene. Since their parentage is domestic shorthair (no known pedigreed cats have been involved) outcrossing using only black domestics was done to broaden the gene pool and ensure healthy kittens.

Since the original breeding, natural mutation Lykoi have been located in the feral cat population from every continent excluding Antarctica. These places include various places in the USA, Australia, France, Italy,

Poland as well as a couple others. Dr. Leslie Lyons and her team has published 2 studies about the breed to include locating 6 variants in which cause the unique Lykoi Coat and roan pattern. The Lykoi breed achieved full recognition in TICA in 2017 and in WCF in 2020. The breed was preliminary recognised in CFA from 2022.

LYO Standard

Attached is the Standard and Scale of Points for the LYO agreed by the Breed Council and the JSC. The breed shall be judged in Category 4.

Conclusions

In compliance with art.10.2.3 of the Breeding and Registration Rules, the JSC recommends the preliminary recognition of the Lykoi from 01.01.2023.

Steven L. Jones, FIFe JSC Secretary

6. Report of the Health & Welfare Commission on LYO

The Health and Welfare Commission received information about litters and adults of Lykoi (LYO non) breed cats owned by catteries registered in FIFe.

According to information received from the LYO non BC, 13 litters, in total 52 kittens were registered in FIFe in the years 2018, 2019 and 2020 in 5 FIFe members.

4 litters were registered in Brasil

3 litters were registered in Spain

3 litters were registered in Poland

2 litters were registered in Romania

1 litter was registered in Italy

The litter size was 1, 3, 4, 5, 10 kittens and birth processes were reported as easy; females usually do not need any kind of human help. Five (5) FIFe members registered Lykoi (BE, BR, IT, PL, RO) and we received information that 14 LYO non cats were imported to FIFe. According to information, all LYO non tested for FIV and FeLV, were negative. The HWC did not receive any information about congenital defects, health or genetic testing.

Lykoi history and health

The Lykoi Cat is a natural mutation from a domestic shorthair that has the appearance of a werewolf. Mutation occurred in domestic cats over the last 30 years. Foundation cats came from two unrelated litters. The first litter was born July 2010 in Virginia and initially thought to be a possible Sphynx mutation. The mother appeared as a normal black domestic shorthair. Dr. Leslie Lyons did a complimentary DNA test for kittens to confirm they were not Sphynx or Devon.

Testing was done to ensure that we are not dealing with disease or disorders causing the hair coat appearance. Infectious disease tests were performed first and DNA testing was done by UC Davis to confirm that these cats did not carry the SPH/DRX gene. All results proved that none of the foundation cats had the SPH/DRX gene. Also, DNA testing for genetic disease, colour and blood type were performed on all the foundation cats.

At the University of Tennessee, dermatologists examined them for any skin abnormalities. Along with biopsy samples of the skin, the dermatologists could find no reason for the coat pattern. They noticed that some hair follicles lacked all the necessary components required to create hair (which is why Lykoi lacks an undercoat). They also found that the follicles that were able to produce hair, lacked the proper balance of these components to maintain the hair (which is why Lykoi do moult and can become almost completely bald from time to time). A cardiologist also performed cardiac scans to look for any structural problems with hearts. In the end, it was found that cats are healthy and hair pattern is not from any known disease or disorder. It was determined that it was indeed a true natural mutation and the Lykoi breeding program began. The first kitten from a Lykoi to Lykoi cat breeding born 14 09 2011 (Gobbles).

Some cats were born with coat, losing it all during the first weeks of life and then new coat was grown with an amelanistic typical characteristic of the Lykoi. This amelanistic feature is different in quantity in every cat. Lack of undercoat gives the cat an impression of being half-naked, being different in every cat; and also, hairless "mask" on the face, from where they get the werewolf face that gives them the name Lykoi, which means "Wolf Cat" and it comes from Greek.

Conclusion

Because of the small gene pool, outcross with domestic shorthair is allowed.

No signs of HCM or PKD has been found.

No health restrictions are made for LYO non in other federations.

Genetical testing, proving that the Lykoi is not related to SPH or DRX is recommended.

As the breed is relatively new, no health issues have been discovered. Even if most Lykoi cats have no undercoat, they have no health problems related with this issue. They also have whiskers. We gladly recommend the Lykoi for preliminary recognition in FIFe.

Kaunas, 23rd March 2022, on behalf of the FIFe HWC, Jurgita Gustaitiene, chairperson

7. Recommendation from the commissions

Based on the presented documentation and information, the 3 commissions recommend the preliminary recognition of Lykoi.

FIFe	Board	Proposal 7	Show Rules	§ 6.1.9
Reimbursement of expenses and judges' allowance				(reworded)

Judges officiating at a show are entitled to:

- reimbursement of travel expenses (1st class train fare or economy class air fare)
- the provision of food and accommodation for the duration of the show
- if necessary, an additional night's meal and accommodation before returning home
- ~~an allowance fixed by the FIFe General Assembly: the current minimum net amounts are listed in Annex 1 of the FIFe General Rules~~
- **an allowance, which is a compensation for lost time and not a salary or wage**
- reimbursement of expenses and allowance in euro currency, unless otherwise agreed with the show organiser
- **their preferred payment method for reimbursement, unless otherwise agreed with the show organiser**
- **payment of reimbursement or proof there-of at the latest on the last day of the show at which the judge officiates.**

The amount of the judges' allowance is set by the FIFe General Assembly. The current amounts are listed in Annex 1 of the FIFe General Rules.

A show organiser is free to grant a further allowance above this amount.

 ACCEPTED	34	2	-	-

The President informed the Assembly that in line with article 4.8 of the Statutes, she, or rather, the Board, wished to add an agenda item. She asked the Assembly for their opinion.

Voting result	Yes	No	Abstentions	Missing
<input checked="" type="checkbox"/> ACCEPTED	28	6	2	-

The Assembly approved the addition of an agenda item, which would be:

21 h. Question of the Board to the 2022 GA

The restrictions regarding Russia were in place since 01.03.2022 and would be valid until 31.05.2022. The Board considered extending these restrictions until the 31.05.2023, they were:

- *FIFe Members outside Russia may not import any cat bred in Russia in their pedigree books, regardless of, which organization issued its pedigree.*
- *Exhibitors living in Russia may not enter their cats at any FIFe show outside Russia, regardless of, which organization these exhibitors hold their membership in.*

The President asked the Assembly if the existing restrictions should be extended until the 31.05.2023.

Voting result	Yes	No	Abstentions	Missing
<input checked="" type="checkbox"/> ACCEPTED	26	10	-	-

The extension of the existing restrictions until the 31.05.2023 was accepted by the General Assembly.

There was a discussion and several delegates wanted to bring additional restrictions. Again, in line with article 4.8 of the Statutes, the President asked the opinion of the Assembly if an agenda item could be added to enable bringing additional restrictions.

Voting result	Yes	No	Abstentions	Missing
<input checked="" type="checkbox"/> ACCEPTED	27	9	-	-

The Assembly approved the addition of an agenda item enabling bringing additional restrictions.

It was proposed to prohibit the organisation of FIFe shows in Russia with immediate effect.

Voting result	Yes	No	Abstentions	Missing
<input checked="" type="checkbox"/> ACCEPTED	26	8	2	-

The proposal to prohibit the organization of FIFe shows in Russia was accepted. This prohibition was effective immediately, i.e., as of the 27.05.2022 until the 31.05.2023. These restrictions would be reviewed as and when necessary
